

World's Largest Employee Benefit Consultants Choose Hyatt Legal Plans

June 4, 2010 – The list of the “World’s Largest Employee Benefit Consultants” is published annually by *Business Insurance* magazine. Nine of the ten largest benefit consultants from the 2010 list offer a legal plan to their own employees, and all nine offer a Hyatt legal plan.

“This is especially noteworthy because these organizations are in the business of making benefit recommendations to their clients,” said Marcia Bowers, Director of Group Sales & Marketing. “It is also a testament to the superior service we provide, which keeps plan members enrolled and is the reason new members join.”

Group legal plans are a great tool for employers because they are cost-effective and easy to implement and administer. As a voluntary benefit, there is little or no direct cost to employers.

MetLaw®, Hyatt’s model legal plan, covers the most frequently needed personal legal matters, as well as telephone advice and office consultations on an unlimited number of personal legal matters. MetLaw costs around \$200 per year through payroll deductions and covers the employee, spouse and dependents.
